02

Reflection

Reflection on the project

What worked well

- Project Plan
- Weekly meetings
- Communication

Quoc Huy Long Trinh

Areas for Improvement

- Requirements Clarification
- Bot Development

Quoc Huy Long Trinh

03

Bot demonstration

Showcase of functionalities of the bot

Discord Bot Commands

- `'/ask'`
- `'/parasum'`
- `'/sum'`
- `'/pref'`
- `'/reg'`

04

Future Dev

Future development of the project

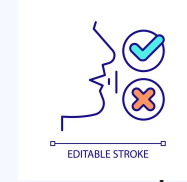

Enhanced Natural Language Processing (NLP) and Advanced User Interaction Features

Improved Summarization Algorithms

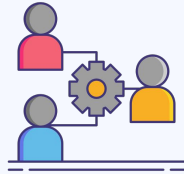

Integrate advanced NLP models (e.g., GPT-4o, BERT) to enhance chat summary accuracy.

Interactive Commands

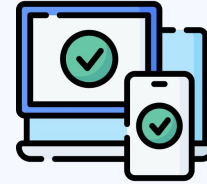

Implement commands for specific summaries or filtered content.

Integration with Other Tools and Platforms

Third-Party Integrations

Export summaries to tools like Trello, Jira, e-mail, or Google Drive.

Cross-Platform Functionality

Extend functionality to Microsoft Teams, or other social application, etc.

05

Conclusion

Conclusion for the project
